

Rain netlabel 23<sup>th</sup> release - 10<sup>th</sup> of November 2007

Martin Dot

## LIGHTBULBS

this is music about  
certain physical occurrences

the electrical cables  
all that is connected with them  
in the walls

the resonance of air moved  
by electrical light

constant electrical pulses

all this makes a noisy sound

it all makes music  
so artificially beautiful

yet  
barely audible...
